DETAILED ACTION

1. Applicants' After-final Amendment filed March 26, 2004, has been entered.

Claims 1 and 2 have been amended.

2. This application is in condition for allowance, except for the following formal matter.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 3 and 4 are canceled for being drawn to non-elected invention. Election was made without traverse by attorney, Mr. Jeff Costellia in June 10, 2002 (see office action mailed in June 14, 2002).

Allowable Subject Matter

4. Claims 1 and 2 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The prior arts teach a method for driving a semiconductor memory composed of an MFS/MFMIS transistor including a FET having a gate electrode formed on a

ferroelectric film or an MFIS transistor including a FET having a gate electrode formed on a multi-layer film of a ferroelectric film and a dielectric film, comprising the steps of:

writing a data in said semiconductor memory by changing a polarized state of the ferroelectric film by applying a bias to the gate electrode; and

reading data written in the semiconductor memory by detecting a current change appearing between the drain and the source of the FET by applying a bias between the drain and the source of the FET with a voltage applied to the gate electrode.

However, in combinations with the method steps disclosed above, the prior arts did not further teach the magnitude of the voltage applied between the drain and the source of the FET in the step of reading a data is set within a range such that the drain/source current of the FET increase as a drain/source voltage thereof increases under the condition that the voltage/current characteristics of the FET change due to a reduction in polarization and disappearance of charges after being programmed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see MPEP 710.02(b)).
